We request you to kindly take the above on your record and disseminate the same on your Website, as may deem appropriate.

Thanking You, Yours Faithfully, For GP Eco Solutions India Limited

Company Secretary & Compliance Officer Tanushree

GP ECO SOLUTIONS INDIA LIMITED

(Formerly known as 'GP Eco Solutions India Private Limited')

GP Eco Solutions Delivers 100% Profit Growth for half year FY26 with 3 GW BESS to commence in January 2026

Noida, 7th November 2025 - GP Eco Solutions India Limited (INE0S7E01015), a leading integrated solar and energy storage solutions provider, announced its financial results for the H1FY26, delivering strong growth across all operational and financial parameters driven by robust demand in renewable energy and rapid progress on its upcoming Battery Energy Storage Systems (BESS) manufacturing facility.

Key Financial Highlights:

Particulars (₹ Cr)	H1 FY25	H1 FY26	Y-o-Y Change
Total Income	83.84	121.94	1 45.44 %
EBITDA	7.71	15.54	101.40%
EBITDA Margins (%)	9.20	12.74	1 354 BPS
PAT	4.89	10.40	1 112.59 %
PAT Margins (%)	5.83	8.53	↑ 269 BPS

Management Commentary

Mr. Deepak Pandey - Managing Director of GP Eco Solutions India Limited, commented on the company's strong results, "We are pleased to deliver another half year of robust growth, with Revenue and Profitability both doubling year-on-year, most importantly EBITDA Margins improving by 354 BPS. This performance reflects the strength of our integrated model across distribution, EPC & manufacturing and our strategic focus on high-margin, technology-driven verticals such as energy storage.

With the commissioning of our 3 GW Battery Energy Storage Systems (BESS) facility and the expansion of our solar inverter manufacturing unit commencing January 2026, GP Eco Solution is positioned to deliver a 50% (CAGR) in Revenue over the next three years, driven by enhanced production capacity, improved operating margins and increased contribution from our OEM and energy storage verticals.

The BESS industry itself is projected to grow over **40** % **YoY in India through 2030**, driven by the nation's **500 GW renewable target**, energy-storage mandates and the rapid adoption of electric mobility. This structural shift offers a massive opportunity, and our early-mover advantage, through Invergy and FuelON, positions GP Eco among the few listed players with fully integrated domestic manufacturing capabilities. As we prepare to **commence production** our focus remains on technology, automation and sustainability - creating products that not only power India's clean-energy transition but also enhance long-term value for our stakeholders."

About GP Eco Solutions India Limited

Incorporated in 2010, GP Eco Solutions India Limited is a leading integrated solar and energy-storage company engaged in distribution, EPC and OEM manufacturing.

Through its subsidiaries - Invergy India, AN3 Techno Power (FuelON) and GPES Green - Company offers comprehensive solar, hybrid inverter and storage solutions for residential, commercial and utility-scale clients.

GP Eco is among the largest authorized distributors of Sungrow in North India and is emerging as a key domestic player in Battery Energy Storage Systems (BESS) manufacturing under the Atmanirbhar Bharat vision.
